

I do not want the Do Not Call legislation in New Jersey to be overturned or degraded in any way. I have a right to not be interrupted by solicitious calls. Just because I purchased something within 18 months DOES NOT mean I want to hear from the seller via telephone. I pay for an unlisted phone number. I pay, dearly I may add, both federal and state income tax. I deserve to have privacy in my home. You do not have the right to determine who can call me and who cannot.
